Introduction

This report gives you easy insight into how the marketplace performed in the previous month by comparing the volume and value of books sold in March in the years 2023 to 2025 first for all subjects and then for eight top-level subjects: Fiction, Non-Fiction, Juvenile, Juvenile Fiction, Juvenile Non-Fiction, Young Adult, Young Adult Fiction, and Young Adult Non-Fiction.

All subjects are presented with data from two markets:

- All Market: Data from all retailers who currently provide us with their sales data.
- Ring Fence Market: Aggregated sales data from a fixed group of retailers that have reported sales consistently since 2023.

Also included is a Year-to-Date overview of all books sold in the marketplace this year and last year by volume and value sold for each of the eight subjects above. The value sold is calculated using the list price multiplied by the number of units sold for each recorded title.

Combining the information present here with data specific to your own organization can highlight any correlation or special relationships between your data and the marketplace.

Report Weeks

The way we determine how weeks fall into months in SalesData is based on the ISO standard for determining how weeks fall into years. The same number of weeks is compared for each year, even if the time period for a selected month may also include a few days' worth of data from the previous month or the following month. See the end of the report for week numbers in 2025.

The specific week-ending dates used in this month's report are as follows:

|         | 2023       | 2024       | 2025       |
|---------|------------|------------|------------|
