Introduction

While backlist titles have always made up the majority of book sales in Canada every year, our [recent research](#) has shown that backlist titles are selling more than ever before.

But which core backlist titles are staples for Canadian book buyers, selling steadily year after year?

This new edition of *Perennial Bestsellers: The Most Reliable Books to Stock by Category 2017–2021* offers new insight into the backlist titles selling the most consistently in the Canadian book market. With data from 2017 to 2021, this report helps to identify backlist titles that have sold reliably over the last five years, making them tried and true.

This report offers booksellers and librarians subject-by-subject analysis of backlist titles, spanning 18 different subject categories. In addition to highlighting Canadian contributors subject-by-subject, this edition includes an exclusive listing of the top perennial bestsellers by Canadian contributors, across all subjects.

Methodology

This report relies on data from [SalesData](#), our national sales tracking service for the Canadian English-language trade book market. SalesData covers an estimated 85% of the Canadian trade print book market, excluding digital book sales. Certain retail categories are not completely covered by our retail panel, and this should be noted in any interpretation of these results, including:

- Independent bookstores: SalesData includes most major independent bookstores and many smaller ones but not all. It also does not capture some specialty independent bookstores.
- K-12 and higher-education sales: Our panel does not include direct institutional sales to schools or college/university textbook sales.
- Digital sales: At this time, ebook and audiobook sales are not represented in SalesData. Therefore, all numbers in this report refer to print books only.

The 18 subject categories featured in this edition of *Perennial Bestsellers* were chosen based on their 2021 annual marketshare. The new Canadian contributor category encompasses titles from all subjects. To identify perennial bestsellers, we searched for titles that ranked highly and consistently in their category every year from 2017 to 2021.

After analysis was complete, the resultant titles were sorted by units sold in 2021 to reflect their current relevance. The top 20 titles from each category have been included in this report, along with their contributor(s), ISBN, publisher, binding type, list price, publication date, average units sold per year, and units sold in 2021.

Titles that have sold steadily over the last decade, those that also appeared in our preceding report *Perennial Bestsellers: The Most Reliable Books to Stock by Category 2012-2016*, have been highlighted.

A maple leaf icon has been included next to a contributor's name if they have been flagged as a [Canadian contributor](#) in the publisher's metadata.

This report was prepared by BookNet Canada staff.

ABOUT BOOKNET CANADA

BookNet Canada is a non-profit organization that develops technology, standards, and education to serve the Canadian book industry. Founded in 2002 to address systemic challenges in the industry, BookNet Canada supports publishing companies, booksellers, wholesalers, distributors, sales agents, and libraries across the country.

BookNet Canada acknowledges that its staff, board, and partners work upon the traditional territories of the Mississaugas of the Credit First Nation, Anishnawbe, Haudenosaunee, and Wendat Indigenous Peoples, the original nations of this land. We endorse the Calls to Action from the Truth and Reconciliation Commission of Canada and support an ongoing shift from gatekeeping to spacemaking in the book industry.

The book industry has long been an industry of gatekeeping. Anyone who works at any stage of the book supply chain carries a responsibility to serve readers by publishing, promoting, and supplying works that represent the wide extent of human experiences and identities, in all its complicated intersectionality. We, at BookNet Canada, are committed to working with our partners in the industry as we move towards a framework that supports “spacemaking,” which ensures that marginalized creators and professionals all have the opportunity to contribute, work, and lead.

BookNet Canada’s services and research help companies promote and sell books, streamline workflows, and analyze and adapt to a rapidly changing market. BookNet Canada sets technology standards and educates organizations about how to apply them, performs market research, and tracks 85% of all Canadian English-language print trade book sales through BNC SalesData.
